

## **Predator Marketing Is A Success For Kathleen Dixon, She Turned Down Prosperity Automated Systems**

*By Katsbiz*

*Dated: Sep 29, 2006*

*After researching Prosperity Automated Systems Kathleen joined Predator Marketing Systems and is already achieving success.*

Predator Marketing systems had a successful launch Sept 1,2006 and Kathleen Dixon joined the company Sept 4,2006.

Predator Marketing is a work from home business that was produced by "Mentors On A Mission." Predator Marketing System removes the most common causes of failure in a work from home business - these include phone calls, rejection, no sales skill, no leads and negative cash flow. The trained staff at Predator Marketing System will contact prospects when they fill out the form on the Predator Marketing System and arrange for the customer to pay the business owner directly. In addition - the Predator Marketing System allows you to promote existing business interests as well.

After 2 weeks as a member Kathleen successfully completed her first sale. "I did not have to do anything" she stated. Kathleen also replied "We have a professional team of call takers that handle all our call backs and then let us know when we have the sale."

"As a work from home business owner I encourage everyone to look into getting a work at home business. I had looked at Prosperity Automated Systems and I was not satisfied with the knowledge that I would need to purchase lead packs starting at a range of \$190 per pack. Predator Marketing Systems is showing me exactly how to generate my own leads using state of the art technology that Veretek offers. Veretek can generate leads for any business."

We asked if she felt that she would be staying with Predator Marketing and Kathleen replied "absolutely!" "I'm looking forward to an early retirement with my husband."

Kathleen also added "I want to thank Al Turnquist for giving me the opportunity to learn exactly how to have a great work from home business."
