

SYCODE launches six file import plug-ins for AutoCAD

By SYCODE

Dated: Dec 15, 2006

SYCODE today launched six file import plug-ins for AutoCAD.

Panaji - 15th Dec, 2006 - SYCODE today launched six file import plug-ins for AutoCAD.

"We are committed to providing powerful, yet simple, data exchange software solutions for AutoCAD customers", explains Deelip Menezes, owner of SYCODE. "These six import plug-ins are part of a larger set of I/O plug-ins that we are developing for AutoCAD as well as other CAD systems."

The five import plug-ins are:

IGES Import for AutoCAD - Initial Graphics Exchange Specification (.igs) file

STL Import for AutoCAD - Stereolithography (.stl) file

OBJ Import for AutoCAD - Wavefront (.obj) file

PIX Import for AutoCAD - Dr. Picza (.pix) file

NC Import for AutoCAD - Numeric Control Program (.nc) file

PLT Import for AutoCAD - HPGL Plot (.plt) file

SYCODE has tremendous expertise in vector file formats as well as experience in developing plug-ins for a variety of CAD systems. We are using both these strengths to create file I/O plug-ins for CAD systems that we hope will help in solving the data exchange problems that the CAD software industry has been facing.

Detailed information about these AutoCAD plug-ins can be found at <http://www.sycode.com/products/index.htm>

About SYCODE

SYCODE develops cutting-edge software solutions for Computer Aided Design (CAD). These solutions are in the form of standalone applications or plug-ins that work inside major CAD systems such as AutoCAD, Autodesk Inventor, Autodesk VIZ, Autodesk 3D Studio MAX, SolidWorks, Solid Edge, Maya, Rhinoceros, Surfcam, IntelliCAD, etc.

SYCODE also designs, develops and implements customized software solutions for companies worldwide. The customized solution may be a standalone application working closely with the client's existing CAD application or a plug-in to the CAD application.
