

Knowbotron Releases Public Beta of an Automatic Web Site Submission Tool

By Chandra Saha

Dated: Jan 07, 2007

Knowbotron releases the public beta of a site submission tool that helps submit web sites automatically to thousands of directories, search engines and download sites.

Knowbotron releases the public beta of its newest product targeted to website owners and software developers. The product "KnowboForm Site Submitter" will help submit web sites and software automatically to thousands of directories, search engines and download sites.

The KnowboForm beta v0.8 database already contains more than 4,000 sites most of which offer free listing. "Promote with Pleasure" as the KnowboForm slogan goes, it is expected that the tool will offer a one stop interface to execute, manage, monitor, and control all submission activities of web site owners as well as submission service providers.

Web site submission is a proven method for link building, pagerank improving and therefore increasing search engine exposure. A tool like KnowboForm that knows it all and automates the task is a must for every site owners.
