

Stock Market Traders' Stock Picks Alert: Michael Fleischer, Doctor Turned Stock Trader,

By Dr. Michael Fleischer/Prosper News Inc.

Dated: Feb 17, 2007

Gainesville, FL.--- For stock traders seeking greater profitability and more consistent results from their stock picks, a new trading platform may be just what the doctor ordered.

Gainesville, FL.--- For stock traders seeking greater profitability and more consistent results from their stock picks, a new trading platform may be just what the doctor ordered. Michael Fleisher, a chiropractor turned successful entrepreneur, has created a system he describes as “a stock market in a box” to help novice traders and seasoned veterans alike navigate their way through the often overwhelming stock market. “Most traders are intimidated by the stock market environment,” says Fleischer. “But the good news is that there is an easier way. Under my EZ Trade pro system, stock evaluation is made simple and stock picks are delivered daily to our exclusive membership, eliminating work and worry for both the fledgling trader and the guy who’s been doing it the hard way forever. Our system generates safe and consistent earnings, helping families plan for the future and letting Grandmom sleep peacefully at night, knowing her IRA is finally out-competing inflation.”

Until recently, these everyday folks that Fleischer’s so passionate about helping didn’t have access to the revolutionary formula that drives the EZ Trade pro system. EZ Trade pro is based upon a written code called CMAA (Conductive Market Anomaly Analyzation), which was developed by a highly successful Wall Street trader and kept top secret –until now. Fleisher recently received exclusive permission to make the CMAA formula accessible to the general public, and he’s confident that use of his system will change how people feel about investing in the stock market. “CMAA is going to open so many doors for investors from all walks of life,” Fleisher says.

CMAA is a proprietary programming code contained within a state-of-the-art trading platform that is managed by an elite team of programmers. The code’s genius lies in its ability to sort through volumes of information each day and pull out only the top stock picks. “Most traders really struggle to make sense of the stock market and spend hours attempting to systematize data,” says Fleischer. “Ninety five percent of traders lose their money trying to manage the impossible task of taming the Goliath known as the stock market. CMAA is really helping to usher in a new world of stock market trading that is much more simple, safe, time efficient and consistently profitable.”

The CMAA formula is available to traders exclusively through Fleischer’s EZ Trade pro system. EZ Trade pro is a user-friendly application of the CMAA formula that delivers relevant market news and the best stock picks to members on a daily basis. Stock picks are graded with a very specific criteria to help each member make empowered choices, and the consistency of the system cuts through the impulse and emotion often associated with the stock market to deliver a new model of stable, accurate trading. “Our members build their stock portfolios with the ease and confidence of seasoned Wall Street professionals,” says Fleischer. “People who have traded in the market for years are telling us that, with EZ Trade pro, it’s never been easier – or less stressful.”

Peace of mind isn’t the only benefit of the EZ Trade pro system. Fleischer says that in addition to increasing traders’ confidence, the EZ Trade pro stock picks system for trading takes the guesswork out of trading and teaches traders how to make money in up, down and sideways markets. And unlike other programs on the market, EZ Trade pro doesn’t require members to buy software or learn to read complicated charts and graphs. “EZ Trade pro really is completely revolutionary,” says Fleischer. “It’s in a class of its own.”
