Customers of Essay-Paper.net do not need to worry about their essays and research papers any longer. Our writing company uses an effective Plagiarism Detection System that guarantees the originality of every essay produced by Essay-Paper.net. Anti-plagiarism quality control developed by our essay writing service prevents plagiarism of any form. Now every essay paper produced for research purposes is checked with the powerful anti-plagiarism software EVE2 to ensure the originality of each custom essay. Essay-Paper.net realizes the need to check every research paper or essay with the anti-plagiarism software that does not keep any information concerning the paper in any archives.

‘As a student at college or university a customer has to be sure his essay will not be included in archives such as Turnitin.com. All essay papers produced by our company are checked with EVE2 that is enough to find plagiarized material’ said Sandra Nortman, human resource manager of Essay-Paper.net. ‘After the implementation of EVE2 we are confident of the high-quality of essays and research papers produced by our company.’

Essay-Paper.net has created the department to handle the plagiarism detecting process. Once the customer has ordered the paper at our website, he does not need to worry about the quality of his essay. All papers produced by our writers are being checked with EVE2. This software checks for plagiarism from web based sources and returns links to web pages from which a student may have plagiarized. EVE2 has been developed to be powerful enough to find plagiarized material. Customer does not need to check the essay himself any more as our quality control department does it for him. Essay-Paper.net has ensured that customers are confident when they use our services. The customer is not involved in the plagiarism detection process and receives the final custom essay or custom research paper.
