Anyone can start a home based business and make a six-figure income with a Predator Marketing System.

CLEVELAND, OH (April 18, 2007) Starting a home based business with a Predator Marketing System seems to be the rage on the Internet. That is the latest announcement to come out of the camp of Jeffrey Sloe and Don Conrad, two Internet marketers. The Predator Marketing System gives a person a chance to make a lot of money on the Internet without investing their life savings, or refinancing their house.

Al Turnquist, founder of the Predator Marketing System, says, "Anyone, even people without prior business experience, can earn a six-figure income with the Predator Marketing System." Starting a home based business with the Predator Marketing System, allows a person to get hands on training and personal one-on-one coaching from some of the most successful people in the home based business industry.

"The Predator Marketing System comes with a state-of-the-art lead generating and marketing system, along with the best presentation technology available today", stated Mr. Turnquist. The lead generating and marketing system Mr. Turnquist is talking about is Veretek. It is available for free to individuals who are ready to start a home based business with the Predator Marketing System.

Mr. Sloe, who has been marketing on the Internet since 2000, says, "I have never seen an automated marketing system like Predator anywhere else on the Internet. The training material, the trainers, and the system combine to offer individuals, looking to make money from home, a complete home based business package. All a person has to do is drive traffic to their personalized Predator Marketing System web site; the system does the rest."

Working from home has been a passion of Jeffrey Sloe and Don Conrad for some time; they have combined forces, through the grace of God, to help make their dreams become a reality. Conrad said, "Jeff and I have a passion to come home and we will help countless others do the same. There is a need for individuals like us to help the underprivileged, individuals who struggle financially, but would love to be home with their family. We will do as much as we can to help individuals succeed in their own home based business"

Sloe and Conrad are not strangers to the Internet. They have been working together, as master distributors for VereConference, for a couple of months but have never met face-to-face. They feel a close bond that many Christian brothers share. God is placed first, not only in their business, but also in their personal lives. Mr. Conrad says he feels like Jeff and I "are one."

If someone is interested in starting a home based business with a Predator Marketing System, they should first watch a short ten minute video and then contact Sloe or Conrad by filling out the form, "Request a Call Back", which is located right on their web site.
