In doing so, they realized their ability to put their web sites to the top of Google. Mr. Sloe and Mr. Conrad have been trained by some of the best SEO specialists in the industry, including Butch Hamilton and Thomas Prendergast, and they have had an incredible amount of success in search engine optimization for their own websites.

Today, they announced that they have formed an SEO services company, Faith Based SEO Services, to offer companies and/or individuals their Search Engine Optimization Services. Sloe and Conrad know the importance of driving targeted traffic to a web site to increase profits. "If a company has the best looking website and has great products and/or services, but nobody sees the web site no sales will be generated, hence no revenue will be generated", states Don Conrad.

The art of search engine optimization, landing top spots on Google or other search engines, takes knowledge and a lot of work. "Not only is it hard work", says Conrad, "but it takes time to land a spot on the first page of Google and keep a web site there. Let Jeffrey and I do the work for your business, so your business can concentrate on making the sales it needs to be successful online."

"The reason for our name, 'Faith Based SEO Services', is because of our belief in our Lord and Savior, Jesus. We put him first in our lives and also in our business. We have faith that He will deliver the right people to us. Jeffrey and I will always talk about God and His one and only son, Jesus, in our business. The world needs to know about Jesus and that one day, He will return to take His people home to live with Him forever", stated Mr. Conrad.

Faith Based SEO Services we will do the work of driving a web site to the top of Google. They will also train individuals or companies if they would rather do their own search engine optimization. All training is done online in a state-of-the-art live web conference room.
