Mobile Phone Shop UK today said that Nokia N76(http://www.mobilephoneshopuk.net/nokia_n76.html) is becoming a craze amongst the mobile phone buyers in the UK. Though this mobile phone was released just in the first quarter of this year, it is taking mobile phone users in the UK by storm. This online phone shop believes that this craze might have resulted from the intense publicity its manufacturer has put up in the UK.

Mr. Samuel Aston, Executive Director remarked “Going by the recent trend in our sales, we see that a large number of consumers are going for Nokia N76. We are having around seven percent of the overall sales from this single model. The stylish form factor coupled with tremendous publicity from the manufacturer might have contributed to this number in sales.”

Speaking to a reporter on a local radio channel Mr. Aston also said “Today, Nokia N76 is the most sought after mobile phone in the UK. It is selling like a hotcake. We believe that style, inclusion of 3G support and great imaging power is the reason for such a huge demand. The profit from the sale of N76(http://www.mobilephoneshopuk.net/nokia_n76.html) contributes a significant amount in our sales figure.”

Earlier, Nokia had put up a tremendous marketing strategy in place for Nokia N76. However, Mr. Samuel Aston’s view may be regarded as the real reasons behind its burgeoning sales. If this single model is enough to give a sales figure of around seven percent in a leading online mobile phone shop like Mobile Phone Shop UK this handset certainly is the one which one should look forward to.
