

AV Voice Changer Software Diamond: Voice-over Maker for home video.

By AVnex Ltd.

Dated: Jun 02, 2007

AV Voice Changer Software Diamond, a great tool to creat different voice-overs, has just been upgraded.

“Home movie makers can find the new AV Voice Changer Software Diamond a great tool to create different voice-overs, especially when this software has just been upgraded with the new Parody Maker and Parody Mixer”, said Chris M., Brand Manager of AV Voice Changer Software series – Audio4fun.com in a statement last week.

AV Voice Changer Software Diamond (<http://www.audio4fun.com/voice-over.htm>) can change users’ voices to many different voices of male, female, baby and even create the funny sounds of animals. With preset nickvoices, even a newbie can find the software easily to change his/her original voice and create many other voices. Especially with the new Parody Maker and Parody Mixer, AV Voice Changer Software Diamond can help users talk like all Hollywood stars’ voices and imitate other people’s voices. So now, the idea of making voice-over with strange, hilarious voices and sounds becomes easier to put it practice, doesn’t it?

With some special movie maker software, you can easily create a short movie of your own style and intention by gathering many photos or combining different video clips. The next step is making suitable voice-overs! It is not so difficult. By changing Timbre, Pitch in the AV Voice Changer Software Diamond, you can talk in different voices and save your audio files in your computer. Finally, you just need to put everything together, and now you have a unique movie!

If you have a camera, everything is easier and greater. Record some special moments of your friends and family and make them surprised by a self-made funny video clip with humorous voice-over. It is more wonderful if you know how to create a cartoon or greeting E-card and then make them talk or sing in your own real or altered voice. It is no doubt that there is no gift is as special as yours is and your buddy will leap for joy receiving it!

Not only for fun, small business and for recording studio, voice-over studio can use AV Voice Changer Software to make some audio files for their projects. In many cases, a normal person cannot speak in very high or low pitch, or create animal sound so the voice changing software becomes very helpful.

Currently, AV Voice Changer Software range includes 3 editions: AV Voice Changer Software Diamond, AV Voice Changer Software Gold and AV Voice Changer which are all featured at: <http://www.audio4fun.com/voice-over.htm>
