*Singapore Incorporation agency Rikvin sets new standards of service delivery with an express service that reduces the time taken to incorporate a Singapore company to just an hour*

Singapore June, 2007 -- In less than an hour, Singapore-based corporate specialist, Rikvin Consultancy Pte Ltd. can help incorporate companies, complete with a bank account and a business address. This effectively translates the time saved in the registration process into critical economic activities, thereby sharpening the new company's competitiveness and readiness to engage its clients.

Ragini Dhanvantray, CEO of Rikvin Consultancy, said, "With its excellent infrastructure, regulatory transparency and strong commitment to efficiency, Singapore provides a highly conducive environment for local and international businesses to operate in. To meet the growing demands for efficiency and diverse needs of our customers, we at Rikvin Consultancy have expanded our range of services to now enable our customers to start a company in Singapore with greater convenience and in a fraction of the time."

The express company incorporation service, in strict compliance with Accounting & Corporate Regulatory & Authority (ACRA) regulations, enables companies in need of urgent incorporation to have an operation-ready business, with all registration procedures completed and necessary certificates on hand, within an hour. This is made possible with a direct on-line access to ACRA's business registration process. Upon request, Rikvin Consultancy goes the extra mile to assist in the opening of corporate bank accounts by arranging a meeting with a banker at their office.

Businesses that call for speedy incorporation in Singapore for contractual, short-term or favorable tax purposes welcome the new service offered by Rikvin Consultancy.

"To seal a local business contract, I needed to start a new company in Singapore immediately. As I was unfamiliar with the regulatory requirements in Singapore, I was particularly impressed by the personalized assistance and swift responses provided by Rikvin Consultancy. My consultancy business was up and running in less than an hour," commended Chris krestner, an entrepreneur from Europe.

Supported by professional advisers and information technology, Rikvin Consultancy offers businesses prompt and reliable service without the hassle. The basic express incorporation package, includes services such as company name search and reservation, completion and filing of the Memorandum and Articles of Association, a personalized compliance corporate kit, corporate bank account documents, minutes of the first Board meeting and a one-year corporate secretarial service. Rikvin Consultancy also offers optional services such as providing a registered company address, acting as a Nominee Director and domain registration for the start-up at additional costs.

"By continually delivering complete, efficient and quality pre- and post-incorporation solutions to our customers, we hope to reinforce our position as a one-stop business services and solutions provider in Singapore," added Ragini Dhanvantray

The express service, however, may be limited by factors such as the choice of company name and the nature of the business. Unsuccessful name choices registered with ACRA could result in unforeseen delays, just as businesses, such as banking and financial institutions, that require specific licenses to operate may also involve longer processing time.
