

U.A.E officials eye the red hot Spanish Concentrated Solar Power industry

By CSP Today

Dated: Sep 27, 2007

Mr Ziad Tassabehij, the Director of Innovation and Investment of Masdar, Abu Dhabi Future Energy Company in Spain confirmed his assistance to the Concentrated Solar Power Summit

Mr Ziad Tassabehij, the Director of Innovation and Investment of Masdar, Abu Dhabi Future Energy Company, and his Excellency Mr. Sultan Mohamed Al-Qortasi Al Noami, the Ambassador of the United Arab of Emirates in Spain confirmed their assistance to the Concentrated Solar Power Summit (November 5 – 6, Seville, Spain) [www.csptoday.com]. They intend to learn about the technology and discuss investment opportunities with the companies involved in the summit

“We are constantly on the outlook for new investment opportunities in the renewable sector and certainly the Concentrated Solar Power Summit will be a chance to speak to all the main players in the CSP industry. I am looking forward to meeting the companies involved” said Mr Al Qortasi.

The Concentrated Solar Power Summit is the only independent forum to discuss the concentrated solar thermal challenges and future trends. Discussing how to reduce costs, hybrid systems, heat storage, sunfall maximisation, efficient construction and financial risk management, the agenda is co-authored by some of the most respected international experts in the CSP industry all concentrating on achieving the successful commercialisation of CSP.

Mr Tassabehji added “The Spanish CSP market has attracted our attention as an investment opportunity and we are keen to have one on one discussions with the companies involved in the summit to discuss the technology and financial aspects of their CSP products”

If you are interested in meeting Mr. Ziad Tassabehji and his Excellency Mr. Sultan Mohamed Al-Qortasi Al Noami, personally as well as many other participants from the CSP supply chain at the Concentrated Solar Power Summit in Seville, visit www.csptoday.com for more information and to book your place.
