

## **SmartHide online anonymizer has been released**

*By Arovax LLC*

*Dated: Oct 05, 2007*

*Arovax Company, leading producer of free and shareware software has released free SmartHide online anonymizer. Anonymizer is easy to set and it has fast speeds on the Internet. It will hide IP address in a few seconds.*

Simple anonymizer for the real protection on the Net

SmartHide online anonymizer includes many features for surfing the Internet. As usual it has a very exciting and user friendly interface. SmartHide online anonymizer allows easily surfing of the Internet at any time. It is possible to hide IP address of any computer and without any installation of additional software. It is enough to be connected to the Internet to hide IP address with its help. SmartHide anonymizer is a creation for web surfers who have no time to download and install software on a PC. Our service is created in accordance with all requests of our frequent users who help us daily to modify and improve SmartHide.

"I see some moments that you've missed in your software. You were asking for any comments about it. Well, I think that your software is partly good for me. What I want to add is smth like web version without installation." - said Juliana from Italy. She is a frequent customer who uses software regularly. Fortunately, we have such customers who have the time to prompt us about things we can not see or see in the wrong way. We have received much more letters conserring the same question and we've decided to realize smth new for SmartHide. We have created free online anonymizer for SmartHide as you can guess.

What is required to use SmartHide online anonymizer? All what is needed is to go to <http://www.smarthide.com/anonymizer.php> page, put in the special field needful URL and push the button "Connect". Now all information is encoded and IP address is changed.

By the way, there some additional options for users:

- Persistent URL
- Remove Cookies
- Remove Referer Field
- Remove Scripts (JS, VBS, etc)
- Remove Objects (Flash, Java, etc)
- Encrypt URLs
- Encrypt Cookies

So, we can make the inference that it is a piece of cake to hide IP address and surf the Internet fully protected with SmartHide online anonymizer. Service is more than prepared for usage and can enjoy any person. Free Prompt: By choosing of additional options you can greatly rise up the speeds of the Internet. If

you lose your way it's better to ask us to help you. Write your wishes and questions to support@smarhide.com. If you want to know more about software please visit SmartHide home page.
