

## **CDEarth Releases Mega Screensavers, Desktop Backgrounds & Computer Wallpaper CD-Rom**

*CDEarth new Screen savers & Backgrounds CD-Rom includes 101 nature, holiday, aquarium, animated and 3D screensavers plus 3,000 photo, space, animal, fantasy and religious backgrounds and wallpapers.*

**Oct. 18, 2007** - [PRLog](#) -- CD Earth, LLC, (<http://www.cdearth.com>) is excited to announce the release of 3101 Greatest Screensavers & Backgrounds CD, now available for Windows PC and Apple Mac OSX computers.

Most computer owners still have the same boring, blue desktop background or plain, black screen when their computer is inactive. Now anyone can customize their computer and show off their personality. There are enough choices on this CDEarth CD-Rom to change a computer's view every day for over 8 years.

Some of the more popular screensavers on the CD include 3D screensavers, matrix code screensaver, animated screensavers, aquarium screensaver, nature screensavers, holiday screensavers, space screensavers and more.

A screensaver is a computer program originally designed to conserve the image quality of computer monitors by blanking the screen, or filling it with moving images or patterns when the computer was not in use. Today, screen savers are primarily used for entertainment or security purposes.

As a bonus, the CDROM also includes over 3,000 beautiful computer desktop backgrounds and wallpapers including beautiful nature backgrounds, 3D backgrounds, animal backgrounds, futuristic backgrounds, fantasy backgrounds, space backgrounds, high-resolution photo backgrounds, airplane wallpaper, holiday wallpaper and thousands of others.
