Exam 70-622 is a core requirement for MCITP: Enterprise Support Technician certification. This exam measures your ability to deploy Windows Vista, manage Windows Vista Security, manage and maintain Systems that run Windows Vista, configure and troubleshoot Networking, and support and maintain Desktop Applications.

Mark Smith, Director Product Management, uCertify remarked, "The PrepKit for MCITP exam 70-622 comes with the most comprehensive and realistic simulations that you need to get certified and will equip you with the knowledge necessary for becoming MCITP Enterprise Support Technician."

The PrepKit for the MCITP 70-622 exams contains 4 full-length realistic tests, which will help the user to get prepared for the actual exam. It contains 280 challenging questions with comprehensive analysis, including pop quizzes, 80 study notes, and technical articles. Detailed explanations are provided for all questions with the correct as well as incorrect answers.

The PrepKit comes with the recently upgraded uCertify PrepEngine with a new interactive dashboard for easy access to all the features. Users can now use keyboard shortcuts for every step to save time while practicing. It also contains some new features such as 'Tagging', 'Discuss it' and 'My notes'. The Tagging feature help users access their tagged questions and study notes and create a customized test to focus on their weak areas.

The 'Discuss it' feature can be used to discuss any questions and study notes with other users. A complete list of uCertify PrepKit features is available at: <http://www.ucertify.com/about/features.html>

The PrepKit comes with 100% money back guarantee. A customer can get full refund of his money if he is unable to pass the exam in the first attempt. More information about the money back guarantee can be found on at uCertify website.
