

Chemguard Launches New Website With On-Line Catalog

Chemguard – a manufacturer of fire suppression foams/equipment/systems, specialty pumps, and fluorosurfactant specialty chemicals – has launched an updated and greatly expanded website.

Jan. 3, 2008 - [PRLog](#) -- Mansfield, Texas, -- Chemguard – a manufacturer of fire suppression foams/equipment/systems, specialty pumps, and fluorosurfactant specialty chemicals – has launched an updated and greatly expanded website. Featuring a comprehensive on-line catalog, the redesigned www.chemguard.com delivers up-to-date product information, facilitating fast, accurate ordering.

Developed with VisualApp, a Richardson, Texas, internet marketing and web development firm, the new Chemguard website offers enhanced customer support, including On Call 24/7, Chemguard's around the clock/around the world emergency foam shipments service. The updated Chemguard website also provides sales staff and distributor contact information, identifies the company's many certifications and listings, and gives information on Chemguard's attendance at trade shows and conferences. A password-protected distributor area will go live in early 2008.

The Chemguard Fire Suppression Division manufactures ISO 9001:2000 Certified fire-suppression foam concentrates, fire-fighting hardware, and engineered foam systems for industrial, military, municipal, offshore, petrochemical/energy, transportation/freight, and aircraft hangar applications. The Specialty Chemicals Division produces a rapidly expanding selection of fluorosurfactant and hydrocarbon specialty chemical products for wetting and leveling applications and for fire-fighting formulations. The recently formed Specialty Pumps Division will introduce advanced foam concentrate pumps and fire suppression water pumps in early 2008.
