Star Search Casting (www.StarSearchCasting.com) utilizes cutting edge technology and web-based tools to help aspiring singers, dancers, models and actors harness the power of the Internet to launch successful careers in the entertainment industry.

HOLLYWOOD – While many websites post casting notices and auditions, SSC (<http://www.starsearchcasting.com>) is the only website that uses advanced web tools to help aspiring performers fully take advantage of the opportunities and the resources that the website has to offer. From allowing users to bookmark their favorite casting call, to sending users auditions via email and cellular phone, Star Search Casting is making it easier for today's aspiring singers, dancers, actors and models to realize their dream of becoming tomorrow's Hollywood stars.

Star Search Casting has always been a leading provider of online casting resources. Users choose Star Search Casting to further their careers in singing, acting, dancing and modeling not only because the website features thousands of casting notices, but also because Star Search Casting makes it easy for aspiring performers to search for, receive and organize casting calls in order to make sure they can take advantage of any and every opportunity.

Star Search Casting's search tools allow users to search for auditions that are within a certain mile radius of their homes. This tool is especially popular because singers, dancers, models and actors from all over the world use Star Search Casting to find auditions in their area. In addition to user-friendly search options, users can sort auditions by deadline as well as bookmark their favorites. They can even add the auditions to the "Audition Cart" as they browse the casting notices and then go back later and send their headshots and resumes to the casting directors all at one time. When a deadline passes, notices are immediately deleted from any saved lists the user has created, yet another convenient feature.

Most aspiring performers who are pursuing careers in acting, dancing, singing or modeling have full-time jobs outside of the entertainment industry. Therefore the time they have to search for auditions may be limited. SSC makes it easier for actors, dancers, singers and models to search for auditions by delivering casting calls to their favorite feed readers, email and their cellular phones. These user-friendly options help ensure that aspiring performers don't miss an audition that would be perfect for them.

Additionally, Star Search Casting validates all casting notices posted to the website - just another step the staff takes to ensure the safety and reliability of the website. It's no wonder Star Search Casting is the #1 Casting Website for aspiring singers, dancers, actors and models!
