

U5Me----Movable Live Chat Button in Internet

By CodingBest Software

Dated: Jan 17, 2008

U5Me enables you to create your movable live chat button in any forums, blogs, auction sites, jobs search sites(or resumes), and your own site. Any Internet users can chat with you by visiting your u5me url.

U5Me enables you to create your movable live chat button in any forums, blogs, auction sites, jobs search sites(or resumes), and your own site. Any Internet users can chat with you by visiting your u5me url: <http://yourname.u5me.com> . Anyone can chat with you instantly or leave you a message after reading your messages or articles posted anywhere in Internet. You will have a movable live chat button in Internet communities. It is an easy way for messaging and interactive self-promotion tool. It is also a convenient IM solution. If you have a Windows Live Messenger account but your friends don't. Now you can tell them:"Reach me at <http://myname.u5me.com> " You can use U5me for the following Usage Scenarios: 1.Let forum users chat with you immediately after they read your posts. 2. Let your blog readers chat with you in real time. 3. Enable a live chat function in auction sites to communicate with your potential buyers or bidders. 4.Make a simple live chat button on your online business web site. 5. Leave your live chat url in your resume (in MS Word format or on job search sites), so that potential employers can chat with you immediately. 6. If your friends are using a different Instant Messenger tool rather than yours, they can still chat with you. 7. If your friends travel out of town, they can chat with you in a Internet cafe or hotel with browser, no need to set up their IM account. 8. If you just need chat with a stranger online once and don't want to reveal your IM account, try U5ME!
