

Announcing a Valentine's Day Countdown with Child Education Video Activities from Cullen's Abc's

By Cullen's Abc's

Dated: Feb 05, 2008

Cullen's Abc's (CullensAbcs.com) child education video activities are a fun way to countdown the days till Saint Valentine's Day.

Cullen's Abc's (CullensAbcs.com) child education video activities are a fun way to countdown the days till Saint Valentine's Day. These free, interactive videos are available from February 1, through February 14.

Join Cullen Wood and her puppet, Gator, as they cross off each calendar day, take a link off a Saint Valentine's Day chain, and share an exciting activity. The fourteen interactive videos help children develop such skills as attention, memory, and language. What's more, you can watch a video that shows you how to make Cullen's Saint Valentine's Day chain. Make these videos part of your daily schedule; watch them at the same time each day.

"Children love to countdown to events, and Valentines Day is such a positive and happy event to promote." states Cullen Wood, founder of Cullen's Abc's. "Lot's of repetition, fun-loving questions, and creative learning help make these educational videos truly entertaining."

Cullen's Abc's is pioneering the use of online video to distribute free child educational videos. There are videos for children to watch interactively with adults, and videos specifically for adults to watch for activity ideas. All videos and activity ideas stimulate young children's development at home and in the classroom. Cullen's Abc's has produced hundreds of educational and entertaining videos for young children and adults involved with young children. These preschool videos have been viewed over three quarters of a million times. Cullen's Abc's is the creation of Cullen Wood, who has been working with young children since 1994. She currently is a Preschool Teacher at St. Timothy's Lutheran School in San Jose, California. Cullen has also authored the article titled: "How to Select the Best Preschool for Your Child" – Inside Tips from a Preschool Teacher.
