

Silencers for Moto Guzzi Griso, Breva, Norge and 1200 sport

By Agostini Srl

Dated: Feb 05, 2008

Silencers homologated Euro 3 for the new generation of Moto Guzzi, slip-on exhaust silencers (mufflers) that comply with the regulations for use on public roads.

The silencers signed Agostini Mandello del Lario are manufactured in a special stainless steel with weight and strength characteristics similar to titanium alloy. All silencers are homologated Euro 3 and are easily mounted on Moto Guzzi: V11, Quota, Breva, Griso, Norge and 1200 Sport.

Silencers for Breva 850, 1100 and Norge 850

Optimal performance from the Agostini Mandello Euro 3 silencer is obtained when used in conjunction with the compensator developed specially for the Breva / Norge 850. The weight is reduced and there is a significant increase in torque, in addition the motor functions better and runs at lower operating temperatures. If a Sprint Filter air filter is fitted there is also a noticeable reduction in fuel consumption. The Sprint Filter is reusable and does not need replacing at every service as it may be washed with water and detergent.

Silencers for Griso 1100, Norge 1200 e 1200 Sport

The slip on Agostini Mandello silencers for Griso / 1200 Sport are manufactured in stainless steel and comply with Euro 3 homologation and as such are fitted with a catalyser and "db killer" both of which are removable for race track use. The silencers are sold complete with clamps and springs necessary for correct fitting.

Silencers for Moto Guzzi V11 and Quota

Agostini Mandello also produce silencers for Moto Guzzi V11 and Quota models. Products are manufactured to suit exhaust systems with or without sonda lambda sensors.

Agostini srl is an official Moto Guzzi dealer and together with new and second hand Moto Guzzi motorcycles, motorcycle rentals and workshop services, carries a wide range of spare parts and accessories. Agostini ships products worldwide by UPS and post. Languages spoken: Italian, English, French and German
