Provides a Useful Resource for Life Insurance Policy Seekers, Holders

We all deal with a handful of complicated, poignant points in our lives, and the better prepared we are for those monumental moments, the better chance we have for success. In order to provide necessary answers to a complicated and often daunting topic, one that ultimately affects those most close to us—our families—life insurance analyst Anthony Steuer compiled his wealth of knowledge in the field in his book, *Questions and Answers on Life Insurance, The Life Insurance Toolkit*.

With 20 years of experience in the life insurance business, Anthony Steuer delivers a practical, one-of-a-kind resource to guide consumers through the basics of life insurance and to help them choose the policy that is just right for them. *Questions and Answers on Life Insurance* is also the reference tool for advisors, providing a fact-filled resource to help them better serve their clients. Using a simple question-and-answer format, Steuer covers every need-to-know fact about life insurance, including:

- The types of life insurance and how to choose a policy right for you
- Choosing a life insurance company and an agent
- Understanding underwriting
- Monitoring your policy

“My book is comprehensive, easy to understand and provides all of the basic information for the novice to the expert. My book has many more references, tools and worksheets than any of the other available books and is completely non-biased,” says Steuer. “It’s consumer friendly and not just a life insurance selling vehicle.”

Questions and Answers on Life Insurance provides in-depth information combined with a user-friendly set up, allowing the reader to quickly identify their particular area of interest. Steuer sheds light on most any quandary, from choosing the right amount for your policy to the not-so-common load of information one can gather from a term life insurance illustration. Steuer’s work simply, yet thoroughly sheds light on a complex, but useful financial tool utilized by most Americans at some point in their lifetime.
