

PlanningWiz to release V3 .0.1 - enhanced version of online space planner software

PlanningWiz - Version 3 has just been released. This online room planner offers much enhanced usability, new and optimized features, improvements inspired by our customers' valuable feedback and our enthusiasm for solving specific technical needs.

March 10, 2008 - [PRLog](#) -- With PlanningWiz, the **online room planner** , users can experiment with different room layouts and **plan** their dream **space** online. Having a user-friendly interface, PlanningWiz <http://www.planningwiz.com> can be easily launched directly from the retailers' or realtors' websites, no additional software installation required.

Already existing features such as **plan** , furnish, resize, shift **furniture** items as wanted, edit, insert annotations, then **save** , **print** , or **Email** the room plans have been enhanced and completed with new exciting ones, including: upload background image into plan, add floor texture, use keyboard shortcuts, grid, ruler, scale, zoom, drawing tools, the **shopping cart** functionality, and other important settings. Feel free to test-drive Version 3 of our **online** space planner at: <http://v3.planningwiz.com>

Some of our clients already enjoy these new features, wrapped in an **intuitive user interface** .
"Our company is specialized in making 3D floor-plans, and some floor-plans we build from are up to a hundred years old. There are often a lot of changes that need to be done, and with PlanningWiz our customers can easily and quickly make the changes and all necessary adjustments. They also get a chance to test the furnishings and the decoration of floor-plans. PlanningWiz saves both our customers and our staff valuable time, being interactive, practical, quick, and flexible. ", says A.W. , General Manager of Swedish Estate Agent - Erikolsson.se.

PlanningWiz V3 provides **furniture** retailers, residential developers and **realtors** valuable key benefits:

- converts website traffic into identified leads for their sales team to contact,
- accustoms website visitors to buy "rooms" not only single furniture items,
- buyers arrive in furniture stores ready to purchase stuff with floor plans in hand,
- reduces no-fits or furniture returns,
- clients can easily order online by adding their furnishings to the shopping cart.
