

Low Levey to raise eSignature awareness at Medical Records Institute's TEPR 2008 Conference

By Computime, Inc.

Dated: Apr 09, 2008

Computime, Inc. announced today that President and CEO Lewis D. Levey will conduct an educational session on electronic signatures at the Medical Records Institute's (MRI) 24th Annual TEPR (Towards the Electronic Patient Record) Conference.

Computime, Inc. announced today that President and CEO Lewis D. Levey will conduct an educational session on electronic signatures at the Medical Records Institute's (MRI) 24th Annual TEPR (Towards the Electronic Patient Record) Conference. His aim is to inform top health IT professionals of the benefits of implementing electronic signatures within Healthcare workflow.

Lew's session, Evolutionary Times in Healthcare: Envision the Benefits of Paperless Processes, will explore the past, present, and future of the electronic signature. Additionally, he will cover the legal aspects of the technology in the context of clinical processes and Healthcare applications. Drawing from his accumulated expertise in the electronic signature industry, Lew will discuss how the various benefits of electronic signatures, including increased efficiency, cost savings, and improved patient care, will position the Healthcare industry for continued success.

As CEO of Computime, an authorized fulfillment partner for electronic signature capture hardware and software, Lew has actively participated in the growth of the electronic signature industry. Lew is an accomplished speaker and author, known for the intimate and engaging manner in which he shares his knowledge. Lew has appeared at numerous industry events around the country, ranging from users group forums to large conferences and expositions.

TEPR 2008 will be held May 17-21 at the Ft. Lauderdale Convention Center in Ft. Lauderdale, Florida. Lew's session is part of the General Health and IT Education Program, and will take place on Monday, May 19, at 12:30 pm.
