*Dated: Apr 11, 2008*

*In addition to their extremely popular established sites for sale, josephspencer.com announces that it has now started offering turnkey sites for sale giving visitors even more flexibility and choice.*

Blaine, Wa - Today josephspencer.com announced that it is now offering turnkey sites for sale. They have already seen a big boom in selling established sites, but wanted to give their visitors even more options by being able to buy a turnkey site as well.

"the nice thing about turnkey sites is that not only can we offer them a bit cheaper, but the visitor can pick their own domain name for their chosen website" says CEO Joseph Spencer, of Joseph Spencer LLC

In addition, josephspencer.com still allows its visitors to buy a site and have it hosted anywhere they wish. Unlike a lot of other companies they don't force people to get web hosting for the site(s) they buy. This increases the loyalty and recommendations from many visitors.

For more information about josephspencer.com's turnkey sites and established sites for sale visit:
