

GlobalNet Technologies, LLC hires Professional Artist/Web Developer of Norris Web Inc.

By GlobalNet Technologies, LLC

Dated: Apr 22, 2008

GlobalNet Technologies, LLC finalize deal with Norris Web Inc. owner William Coulter to give their corporate web site a true attractive look with functionality for all personnel who visit the site.

Charlotte, N.C. – GlobalNet Technologies, LLC Executives announced that GlobalNet has finalized a deal with Norris Web Inc. to help research, develop and design a new one of a kind web site. In a conversation shortly after he found out that Norris Web was selected for the tall task, Founder and CEO of Norris Web Inc., William Coulter said, “I am very excited about the opportunity to win the contract. Norris Web has been developing some pretty interesting web sites for other firms, but this one is special to us.”

GlobalNet Technologies, LLC offer Training Services and Placement Solutions to organizations around the US. Executives at GlobalNet Technologies, LLC are very excited about the new web site which will be able to accommodate clients, candidates and students with enrollment, job tracking, applications calendar events, speaking engagement and community programs in the region. Graphic and functional changes will begin in early May but GlobalNet Executives believe that the fully functional web site could be ready as soon as early December 2008.
