

## **Josephspencer.com Launches New Reseller Program For Anyone To Resell It Established Sites For Sale**

*By JosephSpencer.com*

*Dated: May 01, 2008*

*JosephSpencer.com now offers the ability for anyone with a desire to make money the chance to get into the lucrative market of buying and selling websites. The potential for anyone to make a full time income is waiting for you!*

Blaine, Wa - Earn \$1000's of dollars per month with a small investment of just \$49.99 per month! Better return than the stock market!

<http://www.josephspencer.com> announced today that is now offers all of it websites at wholesale prices for individuals and business owners to resell sites for sale!

Here is an excerpt from their website:

Would you like to make a full time income reselling websites?

One of the fastest growing industries on the internet is buying and selling websites. Thousands of sites are transacted on a daily basis. Just like the real estate market, only virtual.

JosephSpencer.com has developed a very unique and one of a kind reseller program of websites for sale.

What makes us different from any company out there is that we are the only one that provides the following:

- \* Domain Name with every site
- \* FREE installation of all sites you sell directly to your customers
- \* Unique contextual sites added daily
- \* Complete support for you and your customers

How it works:

1. You sign up to become a josephspencer.com reseller : <http://www.josephspencer.com/sites-for-sale/reseller-program,49.html>
2. Once approved you will have a reseller account and a unique log-in (approval takes between 30 minutes to 24 hours)
3. When you are logged into your account, you will see the same sites for sale, except the prices will be 73% CHEAPER
4. You then purchase the site at the reduced price, it will automatically disappear from our store and you are ready to go and resell it. Sell it for any price you wish!
5. Once you have sold the site, you will give your customer a link to a form for installation and domain transfer instructions. An example form is here : [josephspencer.com/asp1.php](http://josephspencer.com/asp1.php) . From that point on, we handle the installation, domain transfer and support for you.

It's that simple!
