

## **New iPod Nano Headphones and Earphones for iPod Lovers Launched at Easyipodshop.com**

*By EasyiPodshop Company Ltd*

*Dated: May 11, 2008*

*China Electronics Retailer EasyiPodshop Company Ltd launches new iPod Nano headphones and earphones for all iPod lovers.*

EasyiPodshop.com - An Online iPod and iPhone accessories Retailer, has announced its latest iPod Nano 3G headphones and earphones for world.

As iPod Nano 3G releases on September 6th, 2007 with the new model's slightly changed body size and shape, It attracted most eyes on it. So, the iPod Nano 3G is here! And of course the natural next step to any new technology is the ipod accessories.

The iPod nano's audio quality is comparable to that of the previous model, which is to say very good for a portable device but, as with all iPod models, limited by Apple's earbuds. With better iPod headphones, the higher the quality of audio files you feed the nano, the better it sounds. With Stylish design 3.5mm standard audio jack, Easyipodshop's high grade headphones and earphones enhance your music listen. Perfectly suitable for all iPod or any other which is 3.5mm plug device. The headphones have a special sound insulating rubber to prevent outside noise from being leaked in. It allows the entire world to listen to their favourite music whilst on the go. So whether you are walking down the street or flying across the world you need a good set of ipod headphones to take everywhere with you. For more details, please visit:

If you want to play the nano's dock-connector audio output through the reference stereo system to make it again sounded excellent, their iPod docks can help you revealing the differences between higher- and lower-quality audio files. All of this can be done by the nano automatically syncs your media with iTunes via a USB 2.0 connection. For more details, please visit:

And it also promotes it's new special thin headphone jack adapters designed for iPhone. As soft and flexible as your regular headphone cords, small - measuring 3 1/4 inches and built to work with microphones too. Now you can use your favorite after-market headphones or headset with your iPhone or anything that have a 3.5mm tip (such as FM transmitters and portable speakers that have a 3.5mm tip) output cable. And it only costs \$0.99! For more details, please visit:
