The area of our opinion, our voice has far been neglected in the international media. Pakistan Daily aims to share positive stories with people concerning Pakistan, you can make your own contributions through our community forum or gain further inspiration from other peoples contributions. For more information you can contact us.

:::Change Pakistan Through Example:::

Positivity is definitely something Pakistan can use more of. It is so easy to get caught up in the negative messages we receive from press, friends, and associates that we lose sight of the good things in Pakistan. We are here. We are able to logically think, and critically analyze, our life, our decisions. We can make a difference. Leaders are not born or made, they evolve from people who learn from mistakes and take an active role in the world around them. We, through our actions, influence others.

Today, as you go through your day-to-day tasks, look inwardly and ask yourself, is the example you are leading with bringing more positive energy and results to the world and people around you? If not, what can you do to change?

“If you don’t like something change it. If you can’t change it, change your attitude.”

We are going to work to change our attitude and find more positives in Pakistan flooded with negatives. Care to join us?

"The greatest pleasure is making others feel good. By sharing your story you will never know the Positive and Lasting difference you will make in the life of someone waiting to hear it"

:::Share Your Positive Pakistani News Story:::

Stories are all around us: in books or magazines or the local newspaper or the movies or seminars or TV or radio or from people we talk to every day or from our own personal experience. Reading about other peoples stories can be very transformational. Or they can be read simply for entertainment and enjoyment.

Everyone has a story to tell be it personal, or something you have read or heard that inspired or motivated you.

The next time you have five minutes to spare do you know what you should do - just think about your story. Switch off the mobile phone, the computer, the pager, the TV, the radio, put down the paper or magazine. Think about a positive story you would like to share with others. What would it be? There is someone out there waiting to hear your story.

If you have a favorite story or two we would love to hear from you.

:::Mission Statement:::
