Yes, You Have The Amazing Ability To Change The Way You Look And Feel About Yourself...Right Now!

"A basic testimonial, instructive, and not overstated book regarding acne. When you read this book, you will be amazingly surprised at the easy-to-do solutions he has to get rid of your acne problem. Author Chris Gibson's groundbreaking rule book can dramatically change the life of anyone living with the effects of acne..."

Jo Hooks - The Birmingham Times

Freedom from the pain of sores, bumps, whiteheads, and blackheads, and the reduced risk of permanent scarring?

"Thank you for giving me new hope. I have benefited much from your book. Since I first started using your program, I have been able to keep my acne away. I had ugly, moderate acne for about 3 years after I graduated from high school, and nothing I ever tried during that period worked for the long run. Your program has been the difference in my life as it has kept working for me day after day! Thank you for your research and your care."

God's Blessings,

Hi Chris,

"Okay! I'm sure I'll sound crazy but I am amazed. It's 20 plus years that I have been dealing with accutane, retin-a, tetracycline, cortisone injections, clearasil, glycolic acid peels, micro dermabrasion and every other chemical and drug there is. I'd given up hope at 37 (and no signs of aging) to ever be clear and not to mention the frustration of not being able to go to the beach or pool, take a shower with my husband or let him see me without makeup on. Do you realize just how much time goes into concealing flawlessly? And the pressure to hide part of who you are? And finding security in your hair?"

Your book made perfect sense. To a certain extent, it's what I've felt all along (that this is a problem that can't just be dealt with products), NOT that I have oily skin or the rate in which I turnover cells is sluggish, leading to blocked pores and infection. If that were the case, the daily facial scrubs would have taken care of that. I must tell you though that I was a little skeptical about following your natural program, but the anticipation of getting results got me through it. Great work!

I followed your plan (not to the tee, however). I was following the steps on the sneak from everyone, so I could not do everything exactly as outlined. However, the results were still amazing. Simply amazing! I plan to continue following your advice and this time I will make sure to do it 100% right. Now I can tell my overprotective husband about your advice because it does work. And, although I've never discussed my embarrassing skin with him or anyone else, I'm sure everyone has seen the changes overnight -- well, 5

days to be exact!

Not even my daily two hour sweat-pouring workouts pose a challenge for my skin anymore. I look great and feel great, I am strong like a US Navy Seal and absolutely corrective makeup free (except for a few scars that I hope in time will fade away). Cosmo cover girls -- move out of the way!"

Forever grateful and completely clear,  
Maria Galati, 37

"Chris' program, "Acne Free in 3 Days" slaps you in the side of the head and reveals to you why acne is a bigger problem that skin care products can only attempt to treat, not stop permanently. Chris further explains how any individual can make simple changes to stop the acne at the root cause of the problem. Don't waste money on trying to cope with the problem of acne with products. Buy Chris' program and stop the root cause for good. Left my skin feeling much softer with a healthy glow, and existing spots began healing immediately. My skin is now completely clear of acne and has been for over a year and a half!  
**HIGHLY RECOMMENDED!"**

"WHERE HAS THIS WEBSITE been all my life? I have tried everything, even the Proactiv stuff - but nothing has given me the long-lasting results this has! Thanks again for answering all of my questions and for caring enough about other people to tell your story. You must get a lot of customers!"

"Chris, you have given me my life back! Before getting your program, I had tried all kinds of treatments you can't even imagine. Then, I read your wonderful book and I was virtually transformed overnight! I can't thank you enough!"

Luis Gonzalez, 14

My book is jam-packed with years of scientific research, helpful information on understanding your specific type of acne (yes, there is more than one type), and a simple, practical, and easy-to-do natural program that really works!

I can easily sell this information for over \$200.00, considering the yearly costs you are already incurring with prescription drugs and over-the-counter products.

However, thanks to the reduced costs involved with doing business on the Internet and my sincere wish to HELP as many acne sufferers as possible - I have decided to offer you immediate access to the program for the one-time cost of...
