Since 1998, teachers from around the world have used Randall's ESL Cyber Listening Lab to help their ESL/EFL students improve their listening skills. Now, these teachers can share their experiences on Randall's site.

American Fork, Utah - For many years, ESL/EFL teachers across the globe have discovered Randall's ESL Cyber Listening Lab (<http://www.esl-lab.com>) and have used the site to help their students improve their listening comprehension skills in English. Because these materials are accessible from any computer, teachers have found that this site provides a good resource to supplement and enhance their classroom curriculum.

Now, Randall has created a new page on his site to highlight teachers' efforts by profiling these ideas so teachers can see what others have done to maximize learning. The page, Teacher Features (<http://www.esl-lab.com/teacherfeature.htm>), includes these profiles and instructions on how other teachers can have themselves featured on this site.

If you've used the site before, then consider submitting your own feature and share your ideas with others.
