*USA, North Carolina artist Robert Kernodle gives new meaning to ideas of truth and beauty.*

USA, North Carolina artist Robert Kernodle argues in favor of **truth** and **beauty** in his latest short essay, ***Truth, Beauty and Fluidity***, where he sheds new light on some old questions: What is truth and beauty? Can different people agree on what these are? Why did some modern thinkers reject the ideas of "truth" and "beauty"? Are these ideas vital for all human beings, to give a sense of meaning, purpose and well-being to their lives?
