

Dreamtech Press Book Release: Dreamtech strengthens its presence with “Java EE 5 Black Book”

By Priyanka Batra, Dreamtech Press

Dated: Jul 11, 2008

Dreamtech Press, a leading publisher forays into Java EE 5 Education, by introducing new “Java Server Programming Java EE 5 (J2EE 1.5) Black Book”- a book for Java EE 5 education.

Kogent Solutions Inc., backed by experienced and well-trained technical writers has come up with “Java EE 5 Black Book”, in association with Dreamtech Press.

“Java Server programming: Java EE 5 (J2EE1.5) Black Book by Dreamtech Press introduces you to the most sought after Java Platform, i.e. Java EE 5 by providing an in-depth view of Java EE 5 capabilities and introduces you to a wide range of Java EE 5 technologies. In addition, the book highlights all the flexibilities introduced by Java EE 5 platform, which have changed the way enterprise application components are developed and configured in an enterprise application. This is no-doubt a one-time reference book that covers all aspects of Java EE 5 platform taking an easy-to-understand approach. The book explores various concepts with appropriate examples and executable applications” – detailed, Mr. Rudraksh Batra, Project Manager – Kogent Solutions Inc.

The book helps to: explore the world of Java EE Connector Architecture; employ the right tools, design patterns, and frameworks effectively and appropriately for developing web and enterprise applications; discover the concepts of web containers and servlets; get in-depth knowledge about JNDI, RMI, CORBA and JDBC; appreciate JSP, including JSTL, Struts, JSF syntax and directives; create enterprise applications using EJB 3.0; learn new features of EJB, such as Persistence API; get familiar with Web Services; deploy web and enterprise applications; handle Listeners, XML and filters in Web applications; work with Hibernate, Seam and Spring; deploy Seam applications on Glassfish and JBoss Application Servers; implement the UML diagrams and more.

According to Mr. Sharjeel Ahmad, Quality Manager, Kogent Solutions, “Java EE 5 Black Book is a reflection of our continued efforts to provide exceptional quality and affordable IT books in an easy to understand approach. The book has been developed after a thorough analysis of the requirements of our target readers – Java students, Java Developers and IT professionals, working on server-side Web-based enterprise Java applications. Considering our diverse book readership and the feedback analysis of our books published earlier, we have ensured through our various review rounds that this book too provides relevant content, combined with fitting and real-life examples.”

The book is available with all the leading book stores and book-distributors. For book details and trade enquiries contact: feedback@dreamtechpress.com or visit: www.dreamtechpress.com.
