Imagine discovering your entire life has been a lie, that you'd been kidnapped as a toddler and sent back to the 1800's.

Roxanne makes this discovery from Collin, the rudest man she's ever met. A man who's determined to take Roxanne into a future that terrifies her. Despite his fear of commitment, Collin can turn her brain to mush and set her soul afire with just a look. While struggling to remain the lady she was raised to be, Roxanne must deal with another man-handsome, charming, obsessed. Brad will stop at nothing to gain ownership of Black Rock Ranch and make Roxanne his wife, including murder.
