New Festool Kapex KS 120 is now available at Highland Woodworking

July 16, 2008 Atlanta, GA. The Festool Kapex KS 120 Miter Saw has shipped in North America and is now in stock at Highland Woodworking. The culmination of years of testing and engineering, the Kapex KS 120 was developed with one goal in mind: to be the best sliding compound miter saw ever manufactured. The Kapex KS 120 is the first miter saw with variable speed, enabling the user to match the speed of the blade with the requirements of the material for perfect cuts, every time. Finally, a sliding compound miter saw that combines a large cutting capacity with a compact lightweight design. The Kapex delivers 12" miter saw capacity in a revolutionary 10" miter saw design.

Festool, founded in 1925 by Albert Fezer and Gottlieb Stoll in southern Germany, has constantly set new benchmarks for innovative tool design and development, and the Kapex KS 120 Sliding Compound Miter Saw does so again. The innovative twin-column forward rail design gives the Kapex saw greater precision in an extremely small footprint. And Festool's meticulous engineers designed the saw to capture 91% of the saw dust when used with a CT dust extractor when using a 36mm hose.

SPECIFICATIONS

- Power Consumption: 1600 Watts
- Speed: 1,400-3,400 RPM
- Cutting Depth 90°/90°: 12" x 3-1/2"
- Special Cutting Depth: 4-23/32" x 3/4"
- Crown Nested Capacity: 6-5/8"
- Max Bevel: 47°/47°
- Miter Range: 50°/60°
- Dimensions: 28" x 19-3/4" x 18-1/2"
- Weight: 47 Lbs
