

Dry Pro by Dry Corp Launches National TV Commercial

By Dry Corp, Home of Dry Pro www.drycorp.com

Dated: Jul 21, 2008

Dry Pro by Dry Corp waterproof body protection for casts, bandages, wound care, picc lines, ostomy, prosthetic. www.DryCorp.com is the official home of the Dry Pro and the Dry Pro national TV commercial.

The Dry Pro® national television commercial is complete. Preview this commercial on our website; www.DryCorp.com. Dry Corp will be airing the commercial starting in July and continuing throughout the summer. Dry Pro® is the brand to buy. The products explode this summer.

You too can air the commercial to your local market! We are offering to co-op on the on air advertising costs in your local area. Your Dry Pro® sales have grown through our doctor referral program, customized brochures and many trade show appearances. Now it's time to hit a home run with the Dry Pro® TV Commercial! Contact your Account Executive today to get more information!

Each year Dry Corp has a Spring, Summer and Fall Photo contest, to help showcase how our products have helped people get their quality of life back from using Dry Pro®. This year Kalyn Faggart, from Concord, NC took home the LCD TV prize with her outstanding pictures and Testimonial. Here's just an excerpt from the testimonial;

“We went through last summer trying various things, (plastic bags, waterproof tape, etc.). Nothing worked and she was unable to swim... we saw your brochure in our doctor's office and I immediately ordered one. As a parent who has already seen their child go through so much, to find a product that allows her to have this much fun and freedom again is a God-send! No price can be put on seeing the thrill on her face and watching her play in the water with her family again. I'm recommending your product to EVERYONE”- Kalyn's Mom.

See more information about the photos contest or the life changing PICC protectors at www.drycorp.com

###

Dry Corp manufactures and distributes the Dry Pro waterproof body protection for casts, bandages, PICC line, prosthetic and Ostomy. Dry Pro works on a vacuum seal to keep the cast, bandage or Prosthesis completely dry while showering, bathing and even swimming.
