

Prevent Construction Site Theft

Construction sites are often targets for material theft such as copper, tools, and equipment. This causes loss of time, money, and productivity.

July 27, 2008 - [PRLog](http://myntx.com/construction-security-systems.aspx) -- <http://myntx.com/construction-security-systems.aspx>

NTX Security can install temporary or permanent, wireless video surveillance systems where no power is available. This is the ideal security system to monitor:
remote site security

- * Construction sites
- * Water pump stations
- * Diesel fuel stations
- * Cell towers
- * Storage trailers and shipping containers
- * Unattended vehicles and equipment
- * Hazardous material areas which need immediate security at an accident site
- * Temporary installations for command centers, convoys, and special open air events
- * Remote infrastructure that is subject to both theft and sabotage
- * Golf courses / driving ranges
- * Offsite / unattended parking (e.g., car lots or overflow parking) due to theft & vandalism
- * Head ins
- * Electrical substations
- * Drilling rigs
- * Commercial buildings
- * Large developments
- * Well heads and refineries
- * Retail stores
- * Warehouses

###

We provide business and home security systems that fit most budgets. NTX Security tailors your security system to your everyday needs.

We offer a free security evaluation (\$75.00 value) to help you determine what level of security is right for you.
