

Vantage Webtech Provides Low Cost Custom Wordpress Themes/template.

By Sameer Relan

Dated: Jul 30, 2008

VantageWebtech is offering Wordpress based projects development, management and marketing services.

The easy availability of well developed and customizable Open Source solutions has caused the project costs and execution time for web development projects to be reduced considerably. Wordpress is one such open source software which has been used widely to create content management system based websites and is popularly known and used also as open source Blogging software.

Some of the main features of Wordpress that make it a good platform to create websites are:

- Flexible code which provides the ability to add customized as well as ready made plug ins, modules etc.,
- Allows custom design implementation.
- Provides a search engine friendly code and structure and can be fully Search Engine Optimized.

VantageWebtech offers Wordpress based websites as a part of their open source solutions. Complete website project made in Wordpress includes creating a custom design, setting up the features/modules as per the project requirements and search engine optimization of the website.

In addition to the above, the following stand alone services are also provided:

- Creating Wordpress designs/themes/skins.
- Integrating custom design in Wordpress
- Search Engine Optimization and Online marketing of websites made in word press.

Wordpress based websites are not only cost and time effective but also easy to manage by technical non savvy customers as well. Please read more about Wordpress and open source solutions at http://www.vantagewebtech.com/web_development.html
