

Search Internet without Typing-Logonav.com Releases Touch Screen Yellow Pages & Business Directory

By Logo Navigation Systems LLC

Dated: Aug 10, 2008

LogoNav.com is the 1st local Yellow Pages and Directory with a touch screen interface. Your comprehensive Online Yellow Pages to Restaurants Bars Night Clubs, Hotels Shopping Spas Movies Hospitals & more

Imagine searching without Typing and then clicking a company's Logo to get to their website. LogoNav.com has Simplified Searching Online! The genius sparked the 1st TOUCH SCREEN Business Directory and Yellow Pages. LogoNav decided to provide internet users the easiest way to find a Restaurant, go to a Movie or Buy a Car online. LogoNav created a graphic interface, using Icons for each Category, removing the guesswork out of searching the internet... click to navigate. Yes, it is that simple

The approach is Brilliant. LogoNav has chosen to use a company's Brand image, their logo, and put that in front of consumers. While offering a premium service at \$199/year, the company is able to provide more than any other business directory or yellow Pages in the industry. By utilizing today's technology, LogoNav created a smart approach for online users and customers; now instead of simple text being returned, their logo is returned atop the front page, in front of the consumers looking for companies to buy from.

A Garmin for the car, now a nationwide Logo Navigation System for your computer or mobile phone.

The Company believes the future of touch screen will grab hold in the consumer market and households will finally have touch screen technology available to them, and we will be there providing the most intuitive way to find what you are looking for with a click of the mouse or the touch of your finger tip.

In today's market with Google ruling the world and dictating how things are happening online, Logonav knows there is a better way for local businesses to be found. LogoNav's online business directory is focused on generating the most exposure for a local business without the worries of additional pay per click advertising.

LogoNav offers Cost Effective marketing and advertising solutions for its customers. Never has a company had it so easy to register and be on the front page until now. By completing one simple form and choosing their respective categories, a company becomes a member of the LogoNav.com community and is placed on the front page of that respective category search return.

www.LogoNav.com is about the now, not the yesterday!
