Continuous effort - not strength or intelligence - is the key to unlocking our potential."

Sir Winston Churchill

1874-1965, Former British Prime Minister

Muriel Glasgow has lived this during her more than three decades at the United Nations, and in the years after her early retirement in 1999.

Seemingly effortlessly, yet with tremendous effort, she is constantly on the move to work for the common good and to create a better world for future generations. Cognizant of the lack of knowledge of most of the planet of how the other half lives, she has developed the project recently approved by American Express as being innovative, achievable and having global impact.

HELLO TO YOU WORLD collects a series of hellos from around the world, from the 192 countries which are member states of the United Nations, and counting, and from the hub of hellos takes you into the lives and culture of these nations.

Where is East Timor? What kind of music do they play in Burkina Faso? Are there still pygmies on the planet? How do people on small islands live with all that water surrounding them? What is the currency/money used in Micronesia and how much is it to the American Dollar? Do other countries have dollars? ETC

It is amazing what we don't know, yet more amazing what we don't know that we don't know. Knowledge is the key to the beginning of tolerance and understanding. Knowing about each other helps us reduce the tension that could build through a field of ignorance.

“ONLY ONE WAY ...

As an Artist painter and Designer , I truly need to understand how to communicate and watch my language..

This is why I am always very interested in other people and their World and how it relates to my life.

Some say Curiosity is a bad attitude .

I say Curiosity is essential for developing your intelligence , no curiosity, no discovery , no invention , no dreams , no communication. Curious people are smart open , not idiots .

Hello to You World represent for me a magic key to open an international communication with all people of the world ,

Thank you Muriel Glasgow .

Valy”

HELLO TO YOU WORLD unlocks that human potential of relating, connecting, understanding,

communicating so that we can create better world all around us.
