

## Cooler Transmissions for Nissan Titan

*PML, Inc., announced today a new extra-capacity aluminum transmission pan for Nissan RE5-R05A transmissions which are found in Titan trucks and Armada SUVs. This pan benefits Titan trucks used for hauling, towing, or any demanding application.*

**Aug. 27, 2008 - [PRLog](#)** -- PML has designed and developed a new aftermarket Nissan Titan transmission pan in response to demand from Titan owners for an extra-capacity pan. PML's Nissan transmission pan helps keep transmission oil cool in three ways. First, the pan adds 3.5 additional quarts of oil capacity. Second, the pan features raised fins on the outside. Third, PML designed cast-in baffles on the inside of the pan that keep oil near the filter inlet and aid in heat transfer from the oil to the pan.

PML's new transmission pan also features a cast-in boss that can be drilled and tapped for a temperature sensor, 3/16-inch thick wall to add strength to the transmission case, 3/8-inch thick gasket flange for a secure seal, and a magnetic drain plug for easier, less messy maintenance.

This pan is made in the USA by PML. To purchase a pan or for more information, please contact PML or visit: [http://www.yourcovers.com/tp\\_11037.shtml](http://www.yourcovers.com/tp_11037.shtml)

The pan is available in as-cast, black, and polished finishes. The PML part number is 11037. PML also manufactures and sells a matching Titan differential cover. See [http://www.yourcovers.com/dc\\_10756.shtml](http://www.yourcovers.com/dc_10756.shtml) for information.

###

About PML: PML manufactures and sells cast aluminum automotive parts. PML offers transmission pans, differential covers and valve covers for everything from classic Corvettes to high-performance hot rods, trucks and SUVs. The complete product line is available at: <http://www.yourcovers.com>

In 1986, PML began by providing dimensional inspection, prototyping, tooling, reverse engineering, and CAD modelling to the manufacturing industry. In 1998, PML began the transition to the automotive aftermarket with the design and manufacture of Cadillac® valve covers. Today, PML offers more than 100 pans and covers. PML sells directly to the consumer and offers a dealer program for businesses in the automotive industry.

All PML products are designed and manufactured in the USA.

PML is a member of SEMA, ORBA and Goodguys Rod and Custom Association.
