

Click Manageware signs new Partner Agreement with Sun Microsystems Limited

By Click Manageware

Dated: Aug 27, 2008

A full-featured office productivity suite that's compatible with Microsoft Office at just a fraction of the cost.

Warrington – Click Manageware the global leader in managed streamware services today announced a partnership with Sun Microsystems, Inc a developer of innovative products and services, to provide Sun's StarOffice software to its partners and customers. This will increase the reach of StarOffice by adding leading-edge streaming to its current channels.

Lee Desborough, OEM Software and Technologies Sun EMEA commented. “We believe Click Manageware’s software delivery and management approach via streaming is truly one of the best solutions on the market today, aligning ourselves with the industry’s finest streaming services provider contributes significantly in our ability to deliver superior customer satisfaction to end users, time and time again.”

Dave Moore, CEO of Click Manageware commented “We are proud to partner with Sun Microsystems, Inc. This relationship will allow Click Manageware to extend our existing portfolio of applications available to our Channel Partners. We are excited to be able to offer a full-featured office productivity suite that's compatible with Microsoft Office at just a fraction of the cost.”

About Click Manageware

Click Manageware provides the technology and services needed to build an effective global online marketing program centred on the evaluation and rental of software, available as a pure Streamed or a Streamed and Virtualized solution.

We provide our managed services purely for our channel partners; we do not go direct to end users.
