

Revive Energy Mint's Open their doors to Vendors and Distributors

Revive Energy Mints have announced that they will be opening their doors to distributors. RyLo Products has teamed up with Sito Marketing to offer the this unprecedented distributorship program.

Aug. 31, 2008 - [PRLog](#) -- Revive Energy Mints are unlike any other product out there! Each mint combines the 5 hottest growing segments in the consumer market today. One Revive Mint contains the energy of an energy drink or a cup of coffee plus all the antioxidants and health benefits of fruit. Making this mint a quick and convenient way for people to get their energy fix. Revive Energy Mints pride themselves on giving customers long lasting sustained energy, without the crash of sugar loaded energy drinks.

"This is a huge step for our company. Opening up distributorships is how Red Bull and 5 Hour Energy became so huge. It made sense to follow the same model as them being that we used the same approach as them with our product by carving out a new niche in the supplemental energy industry and we took it a step further by adding the health market reach. We are already growing at an exponential rate and the national advertising we have coming up will solidify Revive Energy Mints place in history. We are excited about this new program and believe it will take our company to new heights"

According to the owners of Sito Marketing each distributor will get a 17 point business package which includes vending machines, retail rights, wholesale costs, marketing materials, coaching, location assistance and much more.

###

Revive Energy mints are the only product on the market that brings together energy and superfoods. Each Revive Energy Mint is equal to 1 cup of coffee or an energy drink as well as fruit.
