Carpet Cleaning Scheduling, Schedule your Carpet Cleaning Los Angeles Upholstery Cleaning Water Damage & Fire Damage Restoration at least 1 week before you move in or move out from place, giving enough time to arrange for a carpet cleaner home or office appointment. Basically, the more advance time the better. We also offer same day service, If you are not available, please arrange an alternative authorized party such as neighbor, friend or relative you can trust to be ther for your carpet cleaning

Carpet Cleaning by L.A Carpet Cleaning removes the toughest, deepest dirt safely and gently from your carpet and upholstery. Hot, soft water and a specially formulated cleaning solution are injected deep within carpet fibers. Then, a powerful suction extracts deep-down dirt, allergens, cleaning solution and 95% of the moisture. Clean carpets enhance the health, well-being, and comfort of your family From small rooms to large areas, L.A Cleaning can handle it all. We offer the highest quality carpet cleaning and upholstery cleaning services available in the industry! We take personal pride in improving your indoor air quality and thus the health, well-being, and comfort of your family.

Upholstery Cleaning You can trust to clean and freshen your furniture, fabrics, pillows and any upholstery safely and quickly. Superior stain removal, Scotch guard protection and odor-removal. Area Rug Cleaning should be professionally cleaned every few years depending upon how much traffic the rug receives. Every time you walk on your rug, impacted soils act like sandpaper, grinding dirt into these delicate fibers.

Thorough professional rug cleaning by L Cleaning will restore the richness of the colors and softness to your rug fibers. We attack pet odors full force. With our specialized odor removal system and our qualified team of specialists, your home will be free from pet odor as soon as we begin to work. Our licensed personnel make it a point to exceed your expectations and earn your repeat business with every task we undertake. You will receive safe, effective carpet cleaning and area rug cleaning services for all your residential and commercial requirements. Our company takes your satisfaction seriously. We are licensed, bonded and insured, and all work is 100% guaranteed. Cleaning your Upholstery

Upholstered furniture has a more varied range of materials and manufacturing methods than carpet. Our knowledgeable technicians can identify the fabric type of each upholstered piece and what cleaning methods will give your upholstery the best, safest and longest lasting results.

Sofas Recliners Dining chairs Love Seats Arm Chairs Leather furniture professional technicians are specially trained in the care of all fabric types, even the most delicate, so you can feel comfortable in knowing they'll choose the proper upholstery cleaning solution for your furniture. And using specially designed tools to gently clean folds and crevices, they'll ensure the entire piece is entirely clean.

A Two-Step Process For A Clean You Can See And Feel

Your furniture is as important to a room's appearance as your carpet. That's why Lvhsystems uses the same process for upholstery cleaning that we do for carpet cleaning. Our exclusive two-step upholstery cleaning system includes a specially formulated pH-balancing fiber rinse that removes cleaning solution residue right along with deep-down dirt - leaving nothing behind but clean, fresh-smelling fabric and furniture.

How it works:

When our specially trained upholstery care technicians arrive at your home, they start with a pre-inspection to identify problem areas. Any problem spot areas are pre-treated. Then the Lvhsystems Two-Step Upholstery Deep Clean process goes to work: Clean One of our special heated upholstery cleaning solutions is applied to the fabric to loosen imbedded dirt.

Rinse It's followed by a thorough fiber rinse and extraction step to remove the dirt along with the cleaning solution. We then recommend an application of Lvhsystems UltraCare™ FourGuard Carpet and Upholstery Protector (optional). Reapplying the fabric protector helps restore protective properties to your furniture, extending its life and making it easier to care for.

Make Sure You Are Properly Insured

Post Inspection A final inspection helps ensure satisfaction. You can count on Lvhsystems for Satisfaction Guaranteed.

The Importance of Protecting Your Upholstery

Most new upholstered furniture comes treated with protector. But this protection wears off over time.

Having the protector reapplied helps preserve the color, beauty and life of your upholstery. And it gives you extra time to clean up spills before they turn into stains.

Deodorizers

Get Rid of the Odors in Your Furniture Pleasant beats pungent any day. And tough upholstery odors are no match for UltraCare™ FreshScent Plus+ Deodorizer, an enzyme- powered deodorizer designed to attack odor-causing organic sources. The enzymes in FreshScent Plus+ eliminate odors from urine, feces, vomit, sour milk and more by actually digesting the organic matter that's causing the smell - leaving your furniture smelling good again.
