www.lvhsystems.com site provides the ultimate guide for Defining Home Automation*

Sept. 6, 2008 - [PRLog](#) -- Lvhsystems Plasma TV and LCD HDTV, IPTV, Television Home Theater Installation Launch New Website <http://www.lvhsystems.com> site provides the ultimate guide for Defining Home Automation Lvhsystems Low Voltage Home Systems, Smart Home Automation and technology has focused on residential automation installation, major commercial automation and automation projects in the southern California communities of Los Angeles, Beverly Hills, Calabasas, Agoura Hills, Woodland Hills and Sherman Oaks for over 18 years. Lvhsystems Home Automation employs design home automation, installation, oriented home theater installers and expert craftsman to develop and implement new levels of comfort and control made possible by the best available home automation systems designed and installed, that fit your lifestyle and add valuable curb appeal.

Experience pays off! Our experience can save you hundreds, if not thousands, of dollars by determining the best combination of services to meet your needs — that means every project we build is customized for you, not all home automation project are identical.

We are known for our reliability, superior workmanship & impeccable service. Using only quality materials, our standards of excellence provide you the most return for your investment. Over the years, we have developed a deep respect for the importance of individual expression in home automation. Right from the start of every project, we strive to fully understand and incorporate your individuality into every phase of planning, design and home automation.

Pre-wiring your home for home theater/surround-sound during remodel or new home construction offers the very best return on your investment. These kits come complete with UL rated in-wall speaker wire, pre-terminated subwoofer cable and your choice of banana plug or spade lug speaker connectors. Pre-wire during home remodeling/home construction you can be confident that your home theater will have the no visible wires custom home theater look. Pre-wire kits are available in Dolby 5.1, 6.1, 7.1 surround sound and work for both free-standing and in-wall speakers.

How do We pre-wire my Home Theater for Audio? We pre-wire from 5.1 all the way to 12.2 surround sound with 7.1 being the most popular. How do we pre-wire my Home Theater for Video? If you wish to conceal cables that connect your HDTV monitor to your DVR/VCR/DVD or a cable TV/Satellite set top box, We can pre-wire with a UL rated component video cable(miniature coax RGB cable). A 5 mini-coax cable is capable HDTV transmission of upto 1080p.RGB cables are available with jacket with outer jacket or without outer jacket (smaller outside diameter, requires smaller holes)
