

Furniture Hardware of Cabinet pulls and knobs

DAYJIUH Industrial has steadily grown and maintained its edge in the international markets despite growing competitive pressures.

Sept. 17, 2008 - [PRLog](#) -- 2007 is another busy year for DAYJIUH Industrial Co., LTD. In order to pursue superior productivity, DAYJIUH plan to shift its Cabinet Pulls and Knobs Factory to Vietnam and upgrade their equipments to Computerized Numerically Controlled (CNC) System. The company will also attend many exhibitions this year. In the first half year, DAYJIUH is going to Cologne International Hardware Fair (2007/03/04~2007/03/06) and Las Vegas National Hardware Show (2007/05/07~2007/05/10).

DAYJIUH's Cabinet pulls and knobs integrate with excellent quality and artistic design, such as Antique English designs and a choice of colors. "As long as customers provide us a blueprint, we can turn their ideas into reality" Jack said. "We have ability to produce more than 6 millions cabinet pulls & knobs every month. Our Cabinet pulls and knobs sell to global markets; however, European and American are main markets." All items from this series passed the Salt Spray Test which is qualified to furniture parts durable test.

Furniture hardware is always an important element while designing furniture. These interior hardware increase functions and conveniences of furniture also give furniture long-lasting life. Taiwanese furniture hardware manufacture DAYJIUH was found in 1994, which fastens on to high end furniture hardware market and will continue to grow. There are many international well-know furniture corporations purchase furniture parts from DAYJIUH, such as SAKURA, UNION, HAFELE and IKEA. Synthesizing more than a decade experience and a strong spirit of innovation, DAYJIUH is enabled to provide excellent quality, competitive prices and on time delivery to the international interior hardware markets.

With thirteen years experience in the furniture hardware industry, DAYJIUH provides a full range of furniture parts. In term of production value, the biggest segments for the company, in descending order, Furniture Hinge, Furniture Slides & Drawer Slides, Cabinet Pulls & Knobs and Sofa & Cabinet Legs are its top major products. DAYJIUH expanded its manufacture lines into Guangdong China since 2004. It is now running furniture hinge series and furniture slide series two factories, together with more than a thousand employees in mainland China. This expanded facilitate DAYJIUH to affiliate design and produce high volume and labor intensive products.

"Our management team includes an experienced engineering department, which offers DAYJIUH flexibility to design and develop products that meet customers' specific needs and fast growing market" said General Manager Jack Lin.

Furniture Hinge is just like our joints, it relates to furniture's movement and flexibility. With it's specially design and more than 50,000 SGS Life Test, DAYJIUH produce 8 million various furniture hinges per month.

The company's second top main product is Furniture Slide Series. With a fast growing technology in the furniture industry, the application of slides is now reach to a wide range furniture industry. For example, furniture slides, drawer slides, cupboard, TV set....and more. All slides passed more than 80,000 SGS Life Test and with 1.2 million monthly productions.

DAYJIUH is once again meeting customer's needs by providing high performance and a variety of materials Sofa and Cabinet Legs, which are tips to make life a little easier. With it's continuously research for fashion tendencies and development updating products, the company is now deep going to European,

American and Japanese furniture hardware and parts markets.

For DAYJIUH, search for excellent quality, competitive prices and on time delivery are only major concerns. "Quality Control is only way to remain unshakable and become even firmer as time goes by" said Jack. "We believe that only best quality makes customers happy and willing to have long business relationships." The company has set up a Quality Inspections Department in order to make sure all productions are under the standard quality control.

Although prices of hardware raw materials continually increasing, DAYJIUH is trying its best to offer customers a competitive price. "We have set up a purchase term to make sure the best control of costs and offer a better product prices to customers" Jack said.

The company can offer full rang of furniture hardware and parts with OEM and ODM applications. As a veteran of furniture hardware manufacture, DAYJIUH is proud of themselves by on time delivery.
