

Clinical research site booms in Utah

Aspen clinical research announces the opening of their 70 bed Phase I inpatient unit in Utah. Aspen's research encompasses a variety of medical specialties with a host of Utah Physicians overseeing new and ongoing drug and medical device studies.

Sept. 18, 2008 - [PRLog](#) -- Aspen Clinical Research announces the opening of its 70 bed inpatient clinical research unit. The 20,000 square foot dedicated Phase I unit will host a variety of clinical research trials including safety studies with healthy volunteers, indication studies on subjects with current health problems, and other advancing drug and medical device studies. Ian Dawe, Aspen's VP of Business Development states, "Clinical Research in Utah is seeing huge growth and consideration due to the healthy lifestyles many Utahns adhere to, we are building relationships with many international drug companies."

###

Aspen Clinical Research is a Utah based drug and medical device company. Aspen Clinical Research conducts clinical research on new and ongoing technological studies both in and outpatient. More information can be viewed on our website at www.aspenclinicalresearch.com
