Transmission Rebuilders Network International implements an integrated search suite of Products

The Transmission Rebuilders Network International has added an integrated search to the Motor Information Systems Data. Every time a member posts a question to network the TRNi search agent goes to work looking for that repair in both the TRNi Transfix Database and the Motor Information Systems Database. All the relative fixes are then presented to the user for evaluation. This revolutionary design allows the members of the TRNi network to have immediate access to over 17000 repairs.

The Transmission Rebuilders Network International is a network of over 1200 transmission professionals that are dedicated to helping advance the industry by sharing valuable diagnostic information. TRNi's fix database Transfix® contains over 5000 unique repairs.

For additional information regarding accessing this valuable source of data, contact [Steve@trannybuilder.com](mailto:Steve@trannybuilder.com) or visit our site at [www.trannybuilder.com](http://www.trannybuilder.com)

Transmission Rebuilder Network International is a worldwide organization with members in 40 + countries.

###

TRNi is a world-wide network transmission technicians, interacting on problems, fixes & diagnosis, hydraulics, functions, bench techniques, part locating & reviewing, assembly tips, and installation tips for the transmission repair industry.
