By Hon Most Rev Dr Cesidio Tallini

Dated: Oct 04, 2008

A book that is a seminal work in Independent Long Island nationalism is now available at Amazon.com.

The book, *A history of the future: Independent Long Island*, was published on 25 September 2008. The author is the Hon. Most Rev. Dr. Cesidio Tallini, who is President and Founder of the Cesidian Root, an alternative Internet; International Diplomat for the International States Parliament for Safety and Peace; Bishop of the Cesidian Church; Independent Scholar; and Governor of Independent Long Island (ILI) and the United Micronations Multi-Oceanic Archipelago (UMMOA).

This book is a seminal work in Independent Long Island nationalism. It is only 150 pages long, so it is a nice weekend read. The book contains an introduction, 5 chapters, and endnotes and "About the author" appendixes. The book was published by Long Dash Publishing.

This book shows strong argument for full secession from the United States by using the taxation without representation argument used in the past, but also uses other rational arguments to make a very strong case. It shows that the fruits of today's discontent with the state of our privacy, life, and liberty can be found in the past, a past that actually echoes the present in an eerie way, a past as remote as when Independent Long Island was inhabited only by Native American tribes.

This book may also change your religious convictions, because the author also shows how Independent Long Island is actually the Promised Land.
