

## **Stimulsoft Reports.Net report writer. Revolutionary changes.**

*By Stimulsoft*

*Dated: Oct 09, 2008*

*Stimulsoft today announces the release of a new version of Stimulsoft Reports.Net report writer a bronze medal winner of the “2008 Editor’s Best Awards” in the Business Intelligence and Reporting category by SQL Server Magazine.*

What are remarkable changes in a new version? In Stimulsoft Reports.Net version 2008.2 the report engine is completely reprocessed. This improvement optimized work of the product in report creation, increased the speed of report rendering, allowed adding new properties. All this extends report writer capability.

The product interface is completely redesigned. Ribbon UI is now available in Stimulsoft Reports.Net. The new interface helps users to use product more effectively and more productive.

To already available several tens of bar-codes, the following ones such as ISBN-10, ISBN-13, Pharmacode, FIM, Jan-8, Jan-13 etc were added. Among other features new properties, aggregate functions and many other useful improvements were included in the version 2008.2. Also some changes in Excel 2007, Excel XML, RTF, HTML exports were done.

Also some errors of previous versions were fixed.

You can find the description of other essential changes of the version at the official site of Stimulsoft [www.stimulsoft.com](http://www.stimulsoft.com).

### Report Generator Overview

Stimulsoft Reports.Net provides developers with a fast and highly productive way to generate reports that scale to meet user demands. The product has a report designer and a complete set of layout and design controls to create presentation-quality reports. The designer can be used both in design time and in runtime. If it’s used in runtime, no royalties are required. The designer lets developers spend less time on coding, and more time on software development. Reports can be generated from various data sources and can be used in Windows Forms and in ASP.NET.

Stimulsoft Reports.Net 2008.1 supports .Net 1.1, .Net 2, .Net 3, and .Net 3.5.

Please, explore [www.stimulsoft.com](http://www.stimulsoft.com) to learn more about the product.

### Pricing & Availability

Stimulsoft offers their clients wide range of license types which suit better for their specific requirements. The product is available immediately for \$599.95 (US) for a single user license without source code and \$999.95 with source code through the Stimulsoft store ([www.stimulsoft.com](http://www.stimulsoft.com)) and authorized resellers worldwide. Registered users are entitled to a one year subscription program that includes free upgrades to minor and major versions and priority technical support for 12 months from the date of purchase. The subscription program can be renewed and will cost only 33% of the current price of the product. Additional information on Stimulsoft Reports.Net, documentation, Flash tutorials, as well as its free evaluation copy is available from [www.stimulsoft.com/](http://www.stimulsoft.com/).

###

Stimulsoft specializes in the development of components for Microsoft.Net Framework. Customer satisfaction is our first priority and as such we aim to produce top quality software.
