You may have seen Brian Weiss M.D. recently on the Oprah Winfrey Show talking about healing present pain (either physical or emotional) by utilizing a therapeutic tool called Past Life Regression. While this kind of therapy can seem like “hocus pocus”, especially if you don’t personally believe in reincarnation, if you have a good relationship with a qualified therapist then they will walk you through the process while alleviating any fear or concern you may have.

Kevin Stone C.Ht. is one such hypnotherapist who uses his highly refined induction technique to rapidly and effortlessly lead his client into a state of deep relaxation and the hypnotic trance. He then leads his clients through the process of past life regression which allows them to identify what it is that is hanging around from past lives that is acting as an obstacle in this life.

Kevin Stone says, “for my clients who suffer chronic pain, I find that utilizing a tool such as past life regression can help to quickly identify why the pain is there and how I can help to have my client see it for what it is and move beyond the pain.” “I have great success with using past life regression as a therapeutic tool at my hypnosis clinic in Beverly Hills California”
