

## **How Can Grandparents Call Their Children Or Grandchildren By Pressing A Photo?**

*By Assistive Technology Services*

*Dated: Oct 23, 2008*

*Now grandparents can call their children or grandchildren by just pressing one big button with a photo of their loved one on it.*

Assistive Technology Services continues to work to help keep families connected.

Today Assistive Technology Services announces an Amplified Big Button Quick Dial Picture Phone that allows you to place a photo of your loved one, child, parent or grandparent in one of 9 slots.

The 9 slots are programmed with the speed dial number of who you want to call.

This makes staying connected so easy!

For Parents or Grandparents-

Wow, just place your children's or grandchildren's photo in one of the 9 quick dial slots. Then press their photo and you are connected.

For Children or Grandchildren-

Place a picture of parents or grandparents in the photo slot. If your children want to talk with grandmother they just press her picture. How cool is that?!!

This makes it so easy to stay connected. Just press the picture of the loved one and your connected.

Great for children, parents, grandparents, those with low vision or anyone that wants a phone that is easy to use.

It's also amplified!

yep, this phone will also amplify the incoming sound up to 10 times.
